

Restful Retreat: New Bedroom Furniture Collection

Evocative of classic country style, the latest bedroom furniture collection from online interior brand Blueisle.co.uk provides the perfect elegant setting for rest and relaxation. Drawing inspiration from pared-down French design, solid weathered oak is complemented alongside crisp accents of ecru linen for a touch of sophistication and refinement. Carefully handpicked and custom finished to reflect the brand's signature aesthetic, each piece is crafted using the finest materials and techniques. The result is quality furniture designs that lend themselves to both traditional and contemporary décor.

A romantic centrepiece to accompany any bedroom space, the new Classic French Bed with its gently curved silhouette and upholstered head and footboard will guarantee a luxurious setting for sleep. Supported with six cabriole shaped feet, its sturdy yet graceful frame is delicately highlighted with subtle carved detailing and coated with hand-applied, matt white oil for a superior finish. Creating a cohesive bedroom scheme, the matching Weathered Oak Side Table is the ideal bedside addition. Featuring a simple saber leg, its rippled

edges and handy drawer present a stylish surface for a table lamp from the capsule collection at Blue Isle.

To complete the look, the Weathered Oak 3 Drawer Chest offers a practical yet characterful storage solution for clothes and accessories. Beautifully made from solid oak and elevated with neat button feet, the front of the chest is intricately carved to create a truly individual arched design that exudes timeless appeal.
